

BUFT Knowledge Base

BGMEA University of Fashion & Technology (BUFT)

BUFT was established on March 14, 2012, by the Bangladesh Garment Manufacturers and Exporters Association, though its predecessor institution, the Bangladesh Institute of Fashion and Technology, had been operating since 1999. It is located on an 8.5-acre permanent green campus in Nishatnagar, Turag, Dhaka, with a 500,000 square foot building. The university was created to serve Bangladesh's ready-made garment industry, which is the second-largest garment exporter in the world.

The university serves over 15,000 students with more than 200 faculty members across 7 faculties: Textile Engineering, Apparel Studies, Fashion Studies, Business Studies, Engineering Studies, Arts and Social Science, and Sciences. These faculties house 14 departments offering specialized programs in textile engineering, knitwear engineering, apparel manufacturing and technology, apparel merchandising and management, fashion design and technology, fashion studies, computer science and engineering, industrial engineering, business administration, English, and environmental science.

The academic leadership includes Professor Dr. Md. Abdul Jalil as Dean of Textile Engineering, Professor Dr. Engr. Mohammed Rubaiyat Chowdhury as Dean of Apparel Studies, Professor Dr. Md. Alamgir Hossain as Dean of Fashion Studies, and Distinguished Professor Md. Muinuddin Khan as Dean of Business Studies. The Acting Vice-Chancellor is Professor Dr. Engr. Ayub Nabi Khan, and the Board of Trustees is chaired by Faruque Hassan, the BGMEA President.

Admission requires a minimum HSC GPA of 3.0, with science background required for textile engineering programs and portfolios sometimes required for fashion design. The university follows a semester system with online applications through admission.buft.edu.bd and an application fee of BDT 1,000.

BUFT has an extensive scholarship program disbursing approximately 7 crore BDT annually. Scholarships range from 25 to 100 percent tuition coverage for merit students, 50 percent scholarships for children of BGMEA member factory workers, Dean's List awards, need-based aid, sibling discounts, industry-sponsored scholarships from RMG sector companies, freedom fighter quota scholarships, and sports scholarships for national athletes.

Tuition varies by program. Textile engineering at BDT 10,000 per credit for 160 credits totals approximately BDT 1,600,000. Fashion design is BDT 9,000 per credit for 140 credits. BBA costs BDT 7,500 per credit for 120 credits. The one-time admission fee is BDT 20,000.

The campus features 43 state-of-the-art labs specifically designed for the RMG industry, a design studio, a library, an auditorium, a swimming pool, a gymnasium, air-conditioned classrooms, a medical center, and full Wi-Fi coverage. The university maintains a smoke-free, politics-free campus environment.

Student clubs include the Textile Club, Fashion Club, Business Club, Cultural Club, Debating Society, Computer Club, Photographic Society, Sports Club, Volunteer Organization, Language Club, IEEE Student Branch, Environment Club, and Innovation Club. Regular fashion shows showcase student work, and the university maintains strong industry connections through BGMEA.

BUFT has over 30 international academic and research collaborations. In webometrics, it ranks 84th in Bangladesh. It is recognized as one of the top universities for RMG-sector education in the country. The university has had some governance disputes between the BGMEA board and university administration, along with periodic UGC compliance reviews. Its 32,651 LinkedIn followers reflect strong industry engagement. The BUFT Career Center focuses on RMG industry placement.

Admission Process

BUFT admits students for Spring and Fall semesters annually. The application process begins with purchasing the admission form for BDT 700, which can be done online at admission.buft.edu.bd or collected from the Admission Office on campus. Applicants submit completed forms with required documents. Eligible candidates are notified of the admission test date and venue. The admission test is subject-specific, and results are published on the notice board and website. For undergraduate programs, minimum requirements: SSC and HSC or equivalent with Science background (minimum GPA 2.50, except for Fashion Design & Technology which requires GPA 2.00). For O/A Level: minimum B Grade/GPA 4.00 in 4 subjects and minimum C Grade/GPA 3.50 in 3 subjects out of 7. For BBA and BA in English, any background with minimum GPA 2.50 is accepted. Selected candidates must physically report to the admission office with original certificates, mark sheets, testimonials, attested photocopies, NID/birth certificate copies (applicant, father, mother, tuition fee provider), and 4 passport-size color photographs. Application deadline for Fall 2026: August 27, 2026, with admission test on August 29, 2026. For Spring 2026, deadline was July 9, 2026 with test on July 11, 2026.

Degrees Offered

BUFT offers 23 academic programs through its seven faculties and fourteen departments. Undergraduate programs (BSc): Textile Engineering, Textile Engineering & Management, Knitwear Engineering, Apparel Manufacturing & Technology, Apparel Merchandising & Management, Fashion Design & Technology, Fashion Studies (BA), Computer Science & Engineering, Industrial Engineering, Environmental Science, Business Administration (BBA), and BA (Hons) in English. Graduate programs: MBA in Apparel Merchandising, MSc in Fashion Design & Technology, MSc in Textile Engineering, and MA in English. Proposed programs include BSc in Civil Engineering, BSc in Electrical & Electronics Engineering, BSc in Mechanical Engineering, Bachelor of Architecture, BBA in International Business, and one-year MBA programs. Postgraduate Diploma programs include Apparel Merchandising, Knitwear Merchandising, Woven Garments Merchandising, Apparel Patternmaking & CAD Applications, Supply Chain Management, Garments Business Management, and Graphic Design.

Faculties and Departments

BUFT is organized into seven faculties and fourteen departments. The Faculty of Textile Engineering includes departments of Textile Engineering, Textile Engineering & Management, and Knitwear Engineering. The Faculty of Apparel Studies includes Apparel Merchandising & Management and Apparel Manufacturing & Technology. The Faculty of Fashion Studies includes Fashion Design & Technology and Fashion Studies. The Faculty of Business Administration includes the Department of Business Administration. The Faculty of Engineering includes Computer Science & Engineering and Industrial Engineering. The Faculty of Science & Arts includes Environmental Science and English. The Faculty of Health Sciences includes relevant programs. Each department offers specialized programs designed to meet industry needs, with many featuring state-of-the-art laboratories for spinning, weaving, knitting, garment manufacturing, fabric analysis, and CAD/CAM systems.

Faculties and Departments (Detailed)

Detailed information about all faculties and departments at BGMEA University of Fashion & Technology (BUFT) is provided below.

Faculty of Textile Engineering (FTE) — Dean: Prof. Dr. Md. Abdul Jalil (also Dean of Faculty of Sciences). Contact: aj@buft.edu.bd.

Department of Textile Engineering: Head: Farhana Afroz (farhana@buft.edu.bd) Offers BSc in Textile Engineering. Faculty strength: approximately 20. Key research areas include Textile Manufacturing; Fiber Science; Yarn Technology; Fabric Structure; Textile Testing. Notable faculty: Prof. Dr. Md. Abdul Jalil (Dean, Textile Engineering); Farhana Afroz (Head, Textile Engineering). Facilities: Textile Manufacturing Lab, Fiber Testing Lab, Yarn Lab, Fabric Lab, Dyeing Lab

Department of Knitwear Engineering: Head: Mohammad Hosain Reza (hosain@buft.edu.bd) Offers BSc in Knitwear Engineering. Faculty strength: approximately 12. Key research areas include Knitwear Manufacturing; Knitting Technology; Garment Construction; Textile Chemistry; Fashion Knitwear. Notable faculty: Mohammad Hosain Reza (Head, Knitwear Engineering). Facilities: Knitting Lab, Knitwear Design Studio, Garment Lab

Department of Textile Engineering and Management: Head: Dr. Engr. Md. Sohag Miah (sohag@buft.edu.bd) Offers Textile Engineering & Management. Faculty strength: approximately 10. Key research areas include Textile Management; Supply Chain; Quality Management; Textile Marketing; Production Planning. Notable faculty: Dr. Engr. Md. Sohag Miah (Head, Textile Engineering & Management). Facilities: Textile Management Lab

Faculty of Apparel Studies (FAS) — Dean: Prof. Dr. Engr. Mohammed Rubaiyat Chowdhury. Contact: RHC@buft.edu.bd.

Department of Apparel Merchandising & Management: Head: Sabbir Ahmed Abir (sabbir@buft.edu.bd) Offers BSc in Apparel Merchandising & Management. Faculty strength: approximately 12. Key research areas include Apparel Merchandising; Retail Management; Fashion Buying; Supply Chain; Brand Management. Notable faculty: Prof. Dr. Engr. Mohammed Rubaiyat Chowdhury (Dean, Apparel Studies); Sabbir Ahmed Abir (Head, Merchandising). Facilities: Merchandising Lab, CAD Lab

Department of Apparel Manufacturing & Technology: Head: Md. Monirul Islam Rajib (monirul@buft.edu.bd) Offers BSc in Apparel Manufacturing & Technology. Faculty strength: approximately 12. Key

research areas include Apparel Manufacturing; Garment Technology; Sewing Technology; Lean Manufacturing; Automation in Apparel. Notable faculty: Md. Monirul Islam Rajib (Head, Apparel Manufacturing). Facilities: Apparel Manufacturing Lab, Sewing Lab, Industrial Engineering Lab

Faculty of Fashion Studies (FFS) — Dean: Prof. Dr. Md Alamgir Hossain. Contact: PMAH@buft.edu.bd.

Department of Fashion Design & Technology: Head: Summiya Sultana (summiya@buft.edu.bd) Offers BSc in Fashion Design & Technology, MSc in Fashion Design & Technology. Faculty strength: approximately 15. Key research areas include Fashion Design; Pattern Making; Garment Construction; Fashion Illustration; Textile Design. Notable faculty: Prof. Dr. Md Alamgir Hossain (Dean, Fashion Studies); Summiya Sultana (Head, Fashion Design). Facilities: Fashion Design Studio, Pattern Making Lab, Sewing Lab, Fashion Illustration Studio, CAD/CAM Lab

Department of Fashion Studies: Head: Sanjib Barua (sanjib@buft.edu.bd) Offers BSc in Fashion Studies. Faculty strength: approximately 10. Key research areas include Fashion Theory; Fashion History; Fashion Marketing; Sustainable Fashion; Fashion Communication. Notable faculty: Sanjib Barua (Head, Fashion Studies). Facilities: Fashion Resource Center

Faculty of Engineering Studies (FES) — Dean: Prof. Dr. Sirajul Karim Choudhury. Contact: dskc@buft.edu.bd.

Department of Computer Science & Engineering: Head: Biman Barua (biman@buft.edu.bd) Offers BSc in Computer Science & Engineering. Faculty strength: approximately 18. Key research areas include Software Engineering; Database Systems; Networking; AI; Web Technologies. Notable faculty: Prof. Dr. Sirajul Karim Choudhury (Dean, Engineering Studies); Biman Barua (Head, CSE). Facilities: CSE Lab, Programming Lab, Networking Lab, Database Lab

Department of Industrial Engineering: Head: Dr. Nazia Muhsin (nazia@buft.edu.bd) Offers BSc in Industrial Engineering. Faculty strength: approximately 10. Key research areas include Industrial Engineering; Operations Research; Supply Chain; Quality Control; Ergonomics. Notable faculty: Dr. Nazia Muhsin (Head, Industrial Engineering). Facilities: Industrial Engineering Lab, Simulation Lab

Faculty of Business Studies (FBS) — Dean: Distinguished Prof. Md. Muinuddin Khan. Contact: mmk@buft.edu.bd.

Department of Business Administration: Head: Mohammed Masum Billah (masum@buft.edu.bd) Offers BBA, MBA. Faculty strength: approximately 15. Key research areas include Marketing; Finance; HRM; Accounting; Entrepreneurship. Notable faculty: Distinguished Prof. Md. Muinuddin Khan (Dean, Business Studies); Mohammed Masum Billah (Head, BBA). Facilities: Business Lab, Computer Lab

Faculty of Arts & Social Science (FASS) — Dean: TBD. Contact: info@buft.edu.bd.

Department of English: Head: Shahriar Parvin (shahriar@buft.edu.bd) Offers BA in English. Faculty strength: approximately 10. Key research areas include English Literature; ELT; Linguistics; Communication Skills; Academic Writing. Notable faculty: Shahriar Parvin (Head, English). Facilities: Language Lab

Department of Social Sciences: Head: Dr. Nasrin Zahan

(nasrin@buft.edu.bd) Offers BA in Social Sciences. Faculty strength: approximately 8. Key research areas include Sociology; Anthropology; Development Studies; Gender Studies; Social Psychology. Notable faculty: Dr. Nasrin Zahan (Head, Social Sciences). Facilities: Social Science Lab

Faculty of Sciences (FS) — Dean: Prof. Dr. Md. Abdul Jalil. Contact: aj@buft.edu.bd.

Department of Environmental Science: Head: Dr. Marzia Sultana (marzia@buft.edu.bd) Offers BSc in Environmental Science. Faculty strength: approximately 10. Key research areas include Environmental Chemistry; Waste Management; Water Quality; Climate Change; Sustainable Development. Notable faculty: Prof. Dr. Md. Abdul Jalil (Dean, Sciences); Dr. Marzia Sultana (Head, Environmental Science). Facilities: Environmental Science Lab, Water Testing Lab

Department of Sciences (Natural Sciences): Head: Ashraf Mehbub (ashraf@buft.edu.bd) Offers BSc in Natural Sciences (Supporting). Faculty strength: approximately 12. Key research areas include Physics; Chemistry; Mathematics; Statistics; Natural Sciences. Notable faculty: Ashraf Mehbub (Head, Sciences). Facilities: Physics Lab, Chemistry Lab, Mathematics Lab

Credit System and Duration

BGMEA University of Fashion & Technology (BUFT) operates on a semester system with two semesters per year: Spring (starting January) and Fall (starting July). Undergraduate programs are 4 years (8 semesters) in duration, with total credits varying by program. The B.Sc. in Textile Engineering requires 165 credits, while the B.Sc. in Textile Engineering & Management requires 163 credits. B.Sc. in Fashion Design & Technology and B.Sc. in Apparel Manufacturing & Technology each require 145 credits. B.Sc. in Computer Science and Engineering requires 156 credits, and B.Sc. in Industrial Engineering requires 150.25 credits. B.Sc. in Knitwear Engineering requires 145 credits, and B.Sc. in Environmental Science requires 135 credits. Among non-science programs, BBA requires 132 credits, BA (Hons) in English requires 132 credits, Bachelor of Apparel Merchandising & Management requires 140 credits, and BA in Fashion Studies requires 147 credits. Graduate programs include the MBA in Apparel Merchandising at 66 credits (2 years, 4 semesters), M.Sc. in Fashion Design and M.Sc. in Textile Engineering each at 38 credits (1.5 years, 3 semesters), and MA in English at 36 or 48 credits depending on background. One-year Post Graduate Diploma programs (42 credits with internship) and six-month Certificate courses are also offered. The minimum CGPA required for graduation is 2.50 on a 4.00 scale. The curriculum is Outcome Based Education (OBE) compliant, with English as the language of instruction. BUFT follows the trimester system for some programs, and the academic year typically includes a semester break between terms. The university registered under the Private University Act 2010 and was established as a full university on 14 March 2012, having previously operated as the BGMEA Institute of Fashion and Technology (BIFT) since 1999.

Tuition and Costs Overview

Effective for Spring 2026, total tuition fees vary by program (per-credit rate in parentheses). Undergraduate: AMT BDT 684,800 (BDT 3,900/credit), CSE BDT 665,300 (BDT 3,500/credit, after 20% waiver BDT 556,100/BDT 2,800), ES BDT 564,800 (BDT 3,300/credit, after 30% waiver BDT 431,150/BDT 2,310), FDT BDT 703,300 (BDT 4,000/credit), IE BDT 645,175 (BDT 3,500/credit, after 10% waiver

BDT 592,588/BDT 3,150), KE BDT 597,800 (BDT 3,300/credit, after 20% waiver BDT 506,575/BDT 2,475), BBA BDT 610,900 (after 5% waiver BDT 585,820). Graduate: MBA in Apparel Merchandising BDT 316,000 (after 10% waiver BDT 289,600). Admission form fee: BDT 700. Program-specific discounts are available as detailed under scholarships.

Rankings

BUFT, being a relatively young university established in 2012, has a developing international ranking profile. According to EduRank 2026, BUFT is ranked #10456 globally out of 14,131 universities, #4186 in Asia, #81 in Bangladesh, and #39 in Dhaka. The uniRank 2026 evaluation places BUFT as a small-sized institution with enrollment of 5,000 to 5,999 students. While BUFT does not currently appear in the QS World University Rankings or THE World University Rankings main tables, the university has been actively pursuing international accreditation and recognition. The university holds accreditation from the University Grants Commission (UGC) of Bangladesh and programmatic accreditation from the Textile Institute (TI). BUFT is also accredited by the Association of Commonwealth Universities and the Institution of Textile Engineers and Technologists. The university is an active member of several international associations including the International Apparel Federation (IAF), the Society of Dyers and Colourists (SDC), and the International Textile Institute (UK). BUFT is also pursuing accreditation from the Bangladesh Accreditation Council (BAC), with the IQAC organizing workshops on BAC preparation in 2026. The university's institutional quality assurance is managed through its IQAC, and it has established academic partnerships with Manchester Fashion Institute at Manchester Metropolitan University, National Textile University Faisalabad (NTUF), Coppin State University, and other international institutions. Dean Prof. Dr. Sirajul Karim Choudhury leads the Faculty of Engineering Studies, while Prof. Dr. Md. Abdul Jalil oversees both the Faculty of Sciences and Textile Engineering.

Campus and Facilities Overview

BUFT's permanent green campus spans 8.5 acres (with some sources citing 1.66 acres for the main building) at Nishatnagar, Turag (west side of Uttara), Dhaka-1230, alongside the Turag River. The campus features a modern 500,000 sq. ft. building with 43 state-of-the-art laboratories. Facilities include air-conditioned classrooms, a large auditorium, multipurpose hall, seminar rooms, a comprehensive library, swimming pool, gymnasium, playground, multiple cafeterias, and dedicated prayer rooms. Specialized labs include Spinning Lab (full miniature spinning line), Knitting Lab, Fabric Structure Analysis & Design Lab, Photography Studio (Elinchrom lights, motorized backdrops), CAD Studios (Lectra, Gerber software), Surface Ornamentation Studio, and Garments Manufacturing Lab. The campus is smoke-free and politics-free. Wi-Fi connectivity is provided through Agni and Amra Network Corporations with 125 Mbps connection speed. The campus recently expanded with new buildings and facilities.

Scholarships and Financial Aid Overview

BUFT has a generous scholarship program, having distributed over BDT 7 crore (70 million) in scholarships and tuition waivers in 2019. Merit Scholarship during Admission: GPA 5.00 in SSC & HSC (100% tuition waiver first semester), 5 A's in O-Level & 3 A's in A-Level (100% waiver), GPA 5.00 with 4th subject (25% special waiver first

semester). Top 3 scorers in admission test with 75%+ (50% waiver). Program-specific discounts: Environmental Science (25% off all 8 semesters), BA English (25% off 1st semester, 20% off 2nd-8th), CSE (15% off), Knitwear Engineering (15% off), Industrial Engineering (5% off), BBA (5% off), MBA (10% off). Continuing performance scholarships: GPA 3.70-3.79 (20% waiver), GPA 3.80-3.89 (25% waiver), GPA 3.90-3.99 (30% waiver), GPA 4.00 (40% waiver). BUFT graduates with CGPA 4.00 get 25% waiver for graduate programs. Freedom Fighter children and poor meritorious students can receive 100% waiver per government/UGC policy. Recipients who withdraw courses or drop semesters lose their scholarship benefits.

Notable Features

BUFT is Bangladesh's only specialized university focused on fashion, textile, and apparel education. It was established by BGMEA, the apex trade body of Bangladesh's RMG sector. The university plays a critical role in supporting the national goal of achieving \$100 billion in RMG exports by 2030. BUFT has 30+ international academic collaborations including partnerships with University of Borås (Sweden), Wuhan Textile University (China), Technical University Chemnitz (Germany), and Goethe-Institut. The university offers the only specialized degrees in Apparel Manufacturing, Apparel Merchandising, Knitwear Engineering, and Textile Engineering & Management in Bangladesh's private university sector. BUFT has a 92% graduate employment rate. The university maintains a strong industry connection through the BGMEA network. BUFT has over 15,000+ enrolled students according to some sources (official figures cite 6,000+).

Course Details and Credit Costing

Per-credit tuition (Spring 2026): AMT BDT 3,900, CSE BDT 3,500 (with 20% discount BDT 2,800), ES BDT 3,300 (with 30% discount BDT 2,310), FDT BDT 4,000, IE BDT 3,500 (with 10% discount BDT 3,150), KE BDT 3,300 (with 20% discount BDT 2,475), BBA BDT variable. Total program costs (tuition only): AMT BDT 684,800, CSE BDT 665,300, ES BDT 564,800, FDT BDT 703,300, IE BDT 645,175, KE BDT 597,800, BBA BDT 610,900. Semester-wise payment plans available. Per-semester breakdown: 1st semester ranges from BDT 70,125 (ES) to BDT 104,425 (FDT). Final semester ranges from BDT 33,125 (AMT) to BDT 71,725 (CSE). Graduate MBA: BDT 316,000 total. PGD programs available through BIFT. All fees are subject to change without prior notice.

Faculty Information

BUFT employs over 250 faculty members serving more than 6,000 students, maintaining a teacher-student ratio of approximately 1 to 24. The university is organized into seven faculties with distinguished deans. The Faculty of Business Studies is led by Distinguished Prof. Md. Muinuddin Khan, formerly Dean of the Faculty of Commerce at the University of Dhaka with over 55 years of teaching experience. The Faculty of Engineering Studies is led by Prof. Dr. Sirajul Karim Choudhury. The Faculty of Textile Engineering is under Prof. Dr. Md. Abdul Jalil, a renowned researcher and chemist. The Faculty of Fashion Studies is led by Prof. Dr. Md Alamgir Hossain, who earned his PhD from Swinburne University, Australia, and also serves as Acting Pro-Vice Chancellor and Treasurer. The Faculty of Apparel Studies is led by Prof. Dr. Engr. Mohammed Rubaiyat Chowdhury. The Faculty of Sciences and the Faculty of Arts & Social Sciences round out the academic structure. Department heads include Prof. Dr. S. M. Akterujjaman (Business Administration), Biman Barua (Computer

Science & Engineering), Dr. Nazia Muhsin (Industrial Engineering), Dr. A H M Abdul Moudood (Industrial Engineering), Dr. Md. Mohibul Islam Khan (Sciences), Dr. Ranajit Kumar Nag (Textile Engineering), Farhana Afroz (Textile Engineering), Dr. Engr. Md. Sohag Miah (Textile Engineering and Management), Md. Monirul Islam Rajib (Apparel Manufacturing & Technology), Ms. Farhana Jannat (Apparel Merchandising & Management), Shahriar Parvin (English), Dr. Mohammad Shohrab Hossain Sarker (Environmental Science), Ms. Sharmily Sarker Mishu (Fashion Studies), Md. Ariful Islam (Fashion Design & Technology), and Siddika Haque (Knitwear Engineering). International faculty members include lecturers with overseas PhDs from Australia, the UK, Malaysia, and Japan. The university actively recruits faculty with a minimum CGPA of 3.5 and at least one year of teaching or industrial experience. Many faculty hold PhDs from Australian, UK, Japanese, and Malaysian universities, and the university has a growing number of PhD holders across all departments.

Scholarships (Detailed)

BUFT's scholarship program is robust with over BDT 7 crore distributed. Merit Scholarship at Entry: (1) GPA 5.00 in both SSC & HSC = 100% tuition waiver first semester. (2) 5 A's in O-Level & 3 A's in A-Level = 100% waiver. (3) GPA 5.00 with 4th subject = 25% special waiver first semester. (4) Top 3 scorers in admission test (75%+) = 50% waiver. (5) BUFT graduates with CGPA 4.00 seeking graduate admission = 25% waiver. Above waivers continue in subsequent semesters subject to maintaining CGPA 3.70+. Program-specific discounts: ES 25% (all semesters), KE 15%, CSE 15%, IE 5%, BBA 5%, BA English 25% (1st sem) then 20% (2nd-8th), MBA 10%, MSc Textile/Fashion 15%. Continuing merit: GPA 3.70-3.79=20%, 3.80-3.89=25%, 3.90-3.99=30%, 4.00=40%. Freedom Fighter children and poor meritorious students: up to 100% waiver. Scholarship discontinuation occurs if recipient withdraws courses or drops semester.

Student Numbers

BUFT enrolls more than 6,000 students as of 2025-2026, with uniRank estimating the range at 5,000 to 5,999 students, making it a small-to-medium sized private university. The student body is predominantly undergraduate, with over 15,000 students having enrolled cumulatively since inception, though the university claims over 20,000 enrolled on its promotional materials. Approximately 2,731 graduates received degrees at the Second Convocation in February 2025, comprising 2,403 undergraduate and 328 graduate students. The teacher-student ratio is approximately 1 to 24, with over 250 faculty members serving the student body. The acceptance rate is 50 to 59 percent, making BUFT averagely selective. The university offers 23 academic programs across undergraduate and graduate levels. The male-female ratio is not officially reported but given the focus on textiles and fashion, the university likely has a significant female student population. The graduation rate is reportedly high, with over 90 percent of graduates securing employment. The university also offers scholarships of up to 100 percent and has a robust financial aid program. The campus includes a female hostel, reflecting the university's commitment to female student accommodation. International students are eligible to apply and the university has exchange programs with foreign institutions.

Research

BUFT has been actively building its research infrastructure and output since its establishment as a university in 2012. The university publishes the BUFT Journal of Business and Economics (BJBE), an annual peer-reviewed journal covering business and economics fields, with ISSN 2664-9942, now in its 4th volume (2023). The university also publishes the BUFT Journal of Fashion and Technology (BJFT), now in its 7th volume, covering textile engineering, fashion design, and apparel technology research. The BUFT Institutional Repository (space.buft.edu.bd) archives 86 journal articles and growing scholarly output. Joint research includes projects with Manchester Fashion Institute (MMU) under the Global Challenge Research Fund (GCRF) on sustainable fashion and textile practices in Bangladesh, focusing on zero-waste apparel production and material sustainability. In March 2026, BUFT signed a three-year MoU with the Department of Patents, Industrial Designs and Trademarks (DPDT) to establish a Technology and Innovation Support Centre (TISC) on campus, providing access to global patent databases, technical resources, and IP protection services. BUFT also signed an MoU with the Bangladesh Council of Scientific and Industrial Research (BCSIR) in December 2025 for joint research on sustainable textiles, biomaterials, smart and composite materials, natural dyes, recycling technologies, and eco-friendly processing, including joint supervision of undergraduate and postgraduate research. In July 2026, BUFT partnered with National Textile University Faisalabad (NTUF), Pakistan for academic and research collaboration. BUFT won the Best Poster Award at ICTSE 2026 for innovative sustainable textile research. Faculty members have published in journals indexed in Scopus, including the Journal of Textile Science and Technology and other international venues. Research focus areas include sustainable textile processing, functional textiles, circular fashion, renewable materials, Industry 4.0 technologies in apparel manufacturing, supply chain management, and environmental science. The university has 55 state-of-the-art laboratories and maintains academic partnerships with national and international organizations. Research is particularly strong in knitwear engineering, textile engineering, apparel manufacturing, and fashion studies, supported by labs for yarn manufacturing, weaving, circular knitting, flat-bed knitting, dyeing, printing, finishing, pattern making, cutting, and sewing.

Innovation

BUFT fosters innovation through its specialized industry-aligned laboratories and strong partnerships with the RMG sector. The university's 43 state-of-the-art labs include CAD/CAM studios using industry-standard software such as Lectra and Gerber for apparel design, pattern making, and marker planning. The photography studio supports fashion photography and product visualization for student portfolios. BUFT's Innovation Club organizes regular hackathons, design challenges, and innovation competitions. The university participates in international innovation competitions, with the BUFT Team winning the National Championship at the Hult Prize 2026. BUFT organizes the annual BUFT-YELLOW Fashion Fest, which showcases student designs to industry leaders, and the Shaheed Selim BUFT National Debate Competition. The Career Development Center (CDC) fosters industry connections through internships, industrial tours, and guest lectures. BUFT has a strong focus on sustainable fashion innovation, including research into eco-friendly textile processing, waste reduction in garment manufacturing, and ESG (Environmental, Social, Governance) compliance for the RMG sector. The university collaborates with international partners on innovation projects, including the University of Borås (Sweden) on sustainable fashion and Technical University Chemnitz (Germany) on

sustainability in textiles. BUFT's Textile Testing Lab provides quality testing services to the industry while training students in advanced testing methodologies.

Administration

BUFT's top administration is led by the Vice Chancellor, Prof. Dr. Engr. Ayub Nabi Khan, who was formally appointed Vice Chancellor in early 2026 after serving as Acting Vice Chancellor and Pro-Vice Chancellor since the university's founding on 1 November 2012. He holds a BSc in Textile Technology from the University of Dhaka and an MSc and PhD in Textile Technology from the University of Manchester Institute of Science and Technology (UMIST), UK, under a Commonwealth Scholarship. He has 38 years of service in teaching, research, and industry. The Pro-Vice Chancellor (Acting) and Treasurer is Prof. Dr. Md. Alamgir Hossain, who joined BUFT in January 2023 as a Professor of Industrial Engineering, was appointed Dean of the Faculty of Fashion Studies in February 2023, and became Treasurer on 6 August 2024. He holds a PhD from Swinburne University, Australia (2005) and a BSc in Mechanical Engineering from BUET. The Registrar is Md. Rafiquzzaman. The Chairman of the Board of Trustees is Faruque Hassan, who represents BGMEA. The Board of Trustees includes 21 members, primarily textile industry owners and founders including Muzaffar U. Siddique (Founder Chairman), Md. Shamsul Salam Murshed, Mohammed Nasir, and other prominent industry figures. The Chancellor is the President of Bangladesh. The Controller of Examinations is Prof. Dr. Md. Sanaullah. Other key administrators include the Director of Public Relations (Mohammad Imtiaj), Director of IQAC (Prof. Dr. S. M. Abu Raihan), and the Director of Students' Welfare. The Proctorial committee and the IQAC ensure quality assurance and student discipline respectively. The university also has a Syndicate and Academic Council as per the Private University Act 2010.

News

BUFT has been highly active in 2024-2026 with numerous events and partnerships. The Second Convocation was held in February 2025 at the Bangladesh-China Friendship Exhibition Center, where 2,731 graduates received degrees, with Industries Adviser Adilur Rahman Khan presiding and Kihak Sung, Chairman of Youngone Corporation, delivering the convocation speech. The Third Convocation was planned for December 2025 at the permanent campus. The BUFT National Career Fest 2026 was held on 14-15 January 2026 at the permanent campus, featuring over 300 organizations, attracting more than 10,000 job seekers and 40,000 visitors, presented by BGMEA, KDS, and Prime Bank. In November 2025, BUFT signed MoUs with 10 leading apparel manufacturers including Team Group, Giant Group, Hameem Group, Babylon Group, and Shasha Denim for industry collaboration. In February 2026, MoUs were signed with six organizations including Urmi Group, Wonderwall, Surma Garments, Jamuna Group, Fashion Power Group, and BusinessBee. BUFT signed a partnership with Northern Tosrifa Group, AKH Group, and Mithela Group in January 2026. A strategic partnership was forged with National Textile University Faisalabad (NTUF), Pakistan in July 2026. BUFT signed an MoU with the Department of Patents, Industrial Designs and Trademarks (DPDT) in April 2026 to establish a Technology and Innovation Support Centre (TISC). BCSIR and BUFT signed an MoU in December 2025 for joint research on sustainable textiles. BUFT signed an MoU with the Confucius Institute at NSU in February 2026. The BUFT-DBA Alumni Get-Together 2024 brought together over 400 alumni and established the BUFT-DBA Alumni

Association. BUFT also signed MoUs with Mojumder Group, Grameen Health Limited, E-Zone HRM Limited, and Oeti Bangladesh in May 2026 to boost career support. The university hosted the Spring 2026 Orientation and the Faculty of Apparel Studies Poster Presentation and Industry Induction Session in May 2026. BUFT won the Best Poster Award at ICTSE 2026 for sustainable textile research. EPB signed agreements with BGMEA, BKMEA, and BUFT to enhance RMG workforce skills.

Help Desk and Student Services

BUFT provides comprehensive student services through multiple offices. The Director of Students' Welfare Office (DSW) coordinates student activities, alumni relations, physical education, placement services, counseling and guidance, health services, and student discipline in coordination with the Proctorial committee. The Career Counselling Center (CCC) with contact at +02-58950986, managed by Ms. Kamrun Nahar Panna (kamrun@buft.edu.bd, Assistant Manager) and Ms. Rita Rani Das (rita.das@buft.edu.bd, Assistant Coordinator), offers career guidance, internship placement, job search assistance, higher study information, and career development action plans. The university provides free medical services with an on-campus infirmary and a doctor and nurses available for general medical concerns. The Health Club offers fitness assessments, training program planning, and nutrition plans, reachable at healthclub@buft.edu.bd and +09606808080. IT support is available through the IT Office, with a helpdesk contact at hasan.zakaria@buft.edu.bd or +8801715050453. The BUFT App (available on Google Play) provides centralized access to academic and administrative information. The Centre for International Languages & Cultures (BCILC) assists with language learning and cultural orientation. The IQAC (iqac.buft@buft.edu.bd) provides academic advising and quality assurance. The Registrar's Office handles registration matters, and the Accounts & Finance Office manages tuition fee payments. BUFT also offers academic advising, tutoring services, and a female hostel. The university maintains a smoke-free, politics-free campus environment with 24/7 security. The university provides free Wi-Fi, modern classrooms, and 55 state-of-the-art laboratories. Mental health support and financial aid counseling are also available. The working hours are Sunday to Thursday, 9:00 AM to 5:00 PM.

Alumni

BUFT has an active and growing alumni network, managed through the BUFT Alumni Association, an independent non-profit founded in 2013 and headquartered in Uttara, Dhaka. The association aims to cultivate mutually beneficial relationships between BUFT and its global alumni community, providing alumni programs, services, and communication channels to strengthen bonds of fellowship and professional association. The Department of Business Administration's alumni event in May 2024, the BUFT-DBA Alumni Get-Together, brought together over 400 alumni from various industries both domestically and internationally. This gathering marked the inception of the BUFT-DBA Alumni Association, electing Mohammad Mahbub Hossain, International Business Development Manager at Texebo International Pte Ltd, as President. A 25-member Executive Committee, a 19-member Advisory Panel, and a 6-member Board of Directors were established. The BUFT Alumni Association organizes annual cultural programs, alumni nights, grooming sessions for graduating students, and welcoming programs for newly graduated students. Alumni have go-to destinations including Ha-Meem Group, Dekko ISHO Group, The Bitopi Group, NZ Group, Control Union

Bangladesh, and various textile and apparel companies both in Bangladesh and abroad. The alumni network is distributed across sectors including textiles, apparel manufacturing, fashion, banking, and IT. Alumni are actively involved in the BUFT Career Development Club and various student clubs. BUFT alumni also pursue careers with major RMG groups such as Urmi Group, Jamuna Group, and Fashion Power Group. The BUFT Convocation page encourages all graduates to join the Alumni Association and offers free career counseling and vacancy information for life. The Second Convocation in 2025 saw 2,731 graduates conferred degrees, adding significantly to the alumni base. Cumulatively, BUFT has produced thousands of graduates since its inception as BIFT in 1999 and as a full university since 2012.

Campus

BUFT's permanent campus is located at Nishatnagar, Turag, Dhaka-1230, on the west side of Uttara, along the banks of the Turag River. The campus spans 8.5 acres and features a modern 500,000 square foot building that houses all academic and administrative facilities. The campus architecture is designed to reflect the fashion and textile industry, with an open, modern aesthetic. Facilities include 43 state-of-the-art laboratories specifically designed for textile engineering, apparel manufacturing, fashion design, and knitwear technology. The campus also features fully air-conditioned classrooms equipped with multimedia projectors, a central library with specialized textile and fashion collections, a 500-seat auditorium, a multipurpose hall for exhibitions and fashion shows, seminar rooms, and conference facilities. Recreational amenities include a swimming pool, a fully equipped gymnasium, a sports playground for cricket and football, and multiple cafeterias serving a variety of food. The campus maintains a smoke-free and politics-free environment, ensuring a disciplined academic atmosphere. Prayer rooms are available for students and staff. The location along the Turag River provides a serene environment conducive to academic excellence, away from the city's hustle yet well-connected to Uttara and other parts of Dhaka. The campus is approximately 15 kilometers from Hazrat Shahjalal International Airport and about 10 kilometers from central Dhaka.

Transport

BUFT operates a free bus service for all enrolled students, a significant initiative designed to make commuting affordable and environmentally friendly. The university's permanent campus is located at Nishatnagar, Turag, Dhaka-1230, on the west side of Uttara, covering 8.5 acres. The campus is situated near the Turag River and is accessible via the Dhaka-Mymensingh Highway. One bus route is documented as 'Mirpur 10 - Campus' (Bus No. 10), but the university maintains multiple routes covering greater Dhaka. The free transport service aims to minimize traffic congestion, reduce carbon emissions, and ensure students arrive on schedule. The university employs an Assistant Transport Officer and maintains a Transport Pool office to manage daily operations of buses and other university vehicles, including maintenance, fuel monitoring, and compliance with traffic laws. Parking facilities are available on campus, with maximum utilization of parking space encouraged. The campus location in Nishatnagar is adjacent to Uttara's Sector 17 and 18 areas, making it accessible from Uttara, Turag, and surrounding areas. The campus is about a 10-minute drive from Hazrat Shahjalal International Airport. Nearby landmarks include the Turag River, Uttara Residential Model Town, Kuril Flyover (about 5 km away), and the Dhaka Elevated Expressway extension. The university operates under a smoke-free, politics-free environment. The GPS coordinates of the campus are

approximately 23.8740°N, 90.4000°E. The university provides an online application system and maintains an admission office at the permanent campus. The campus also features modern infrastructure with 43 state-of-the-art labs, air-conditioned classrooms, and a female hostel.

Library

The BUFT Library began its journey in 1999 with the establishment of the BGMEA Institute of Fashion and Technology (BIFT) and has grown substantially since the university's formal establishment in 2012. The physical collection now includes approximately 10,000 books, 30 journal titles, 2,500 periodicals, and various professional magazines, newspapers, and AV collections. The library uses KOHA, an open-source integrated library management software implemented and customized in 2017, with collections organized according to OPAC standards accessible at opac.buft.edu.bd. The digital resources are extensive, with the library subscribing to major databases including EBSCOhost, JSTOR, Wiley Online Library, Cambridge University Press (CUP), ProjectMUSE, American Society of Civil Engineers (ASCE), Annual Reviews, British Institute of Radiography, Canadian Science Publishing, De Gruyter Online Journals, Geological Society, and notably WGSN Fashion, a leading fashion trend forecasting database critical for fashion studies. The BUFT Institutional Repository (space.buft.edu.bd) serves as a digital archive for scholarly output, including the BUFT Journal of Business and Economics and the BUFT Journal of Fashion and Technology. The library provides access to e-books and e-journals through these subscribed databases, with remote access available through the library's e-resources portal at library.buft.edu.bd. Services include a classic catalogue, reference and citation maker tools, and access to Google Scholar. The library is managed as a flexible learning space with collaborative and individual study areas. The collection focus is on textile engineering, fashion design, apparel manufacturing, business administration, and related fields that support BUFT's academic programs. Students and faculty rank the library as the most important source of information for their research. The library team provides reference services and research support to patrons.

Career Opportunities

BUFT has established itself as a leader in graduate employability, with over 90 percent job placement for its graduates, a figure attributed to the university's close connection with BGMEA, BTMA, BKMEA, and other industrial associations representing thousands of member factories. The Career Development Centre (CDC) manages internship and employment placements, while the Career Counselling Center (CCC) offers career guidance, job search support, and higher education information. The BUFT Career Development Club (BCDC) organizes the annual BUFT National Career Fest, a flagship event that has grown significantly: the 2025 edition featured over 100 companies with 4,000+ job seekers and 20,000+ visitors, while the 2026 edition expanded to over 300 organizations, 10,000+ job seekers, and 40,000 visitors. The 2026 edition was presented by BGMEA, KDS Group, and Prime Bank PLC, with major textile groups as partners. Top recruiters include Ha-Meem Group, Giant Group, Team Group, Babylon Group, Urmi Group, Wonderwall, Surma Garments, Jamuna Group, Fashion Power Group, BusinessBee, Fakir Apparels, Shasha Denim, Purbani Group, Paramount Group, Sonia Sweater Group, Northern Tosrifa Group, AKH Group, Mithela Group, Brandix Apparel Bangladesh, Mojumder Group, Renai Group, Centro, Fashion Step Group, Shin Shin Group, Masco Group, and Auko-Tex Group. BUFT signed MoUs

with six organizations in February 2026 and four more in May 2026 specifically for career support. The university also organizes daylong job fairs, including one in May 2025 with Renai Group. On-the-spot interviews, direct recruitment, workshops, seminars, and panel discussions are regular features. The university provides internship placement services through the CCC and coordinates with industries for practical training. BUFT graduates are highly sought after for their practical skills and industry readiness, with many alumni working in senior management positions in the RMG and textile sectors both in Bangladesh and internationally. The university's curriculum is OBE-based and regularly updated based on employer feedback.

Contact and Links

The full address of BUFT is: Nishatnagar, Turag, Dhaka-1230, Bangladesh (west side of Uttara). The main phone number is +09606-808080. Additional phone numbers include +880 9606-950986 and +880 9606-950987. The admission hotline numbers are +880 1810-063355, +880 1988-772233 (also WhatsApp), and +880 1844-616580. The PGD program director can be reached at +880 1715-003599. The general email is info@buft.edu.bd, and the admission-specific email is admission@buft.edu.bd. The official website is www.buft.edu.bd, with admissions at admission.buft.edu.bd and an alternative domain at buft.ac.bd. Social media links include Facebook (facebook.com/bgmeauniversitybd), Twitter (twitter.com/BgmeaUniversity), LinkedIn (linkedin.com/school/bgmea-university-of-fashion-and-technology), YouTube (youtube.com/channel/UCpD4QGJyu2qIWQdnXDZPv3g), and Instagram (instagram.com/bgmeauniversity).
