North South University (NSU)

North South University, established in 1992, holds the distinction of being the first private university in Bangladesh. It is located in the upscale Bashundhara Residential Area of Dhaka on a 5.5-acre campus and has grown to become the largest private university in the country with approximately 26,000 students. Its motto is "Seek Knowledge."

The university is organized into 4 schools: the School of Business and Economics, the School of Engineering and Physical Sciences, the School of Humanities and Social Sciences, and the School of Health and Life Sciences. These schools house 16 departments covering business, economics, computer science, engineering, architecture, English, law, media and communication, political science, sociology, biochemistry, microbiology, environmental science, pharmaceutical sciences, and public health. The university has approximately 329 core full-time faculty members supplemented by a large adjunct faculty, bringing the total to over 1,200.

The academic leadership includes Professor AKM Waresul Karim as Dean of the School of Business and Economics, Professor Shazzad Hosain as Dean of Engineering and Physical Sciences, Professor Md. Rizwanul Islam as Dean of Humanities and Social Sciences, and Professor Dipak Kumar Mitra as Dean of Health and Life Sciences. The business school faculty is particularly strong, with professors holding doctorates from universities like the University of Leeds, La Trobe University, Purdue University, Macquarie University, Curtin University, and the University of Queensland. The Vice-Chancellor is Professor Dr. Abdul Hannan Chowdhury, and the Board of Trustees is chaired by Aziz Al Kaiser.

NSU offers undergraduate admissions three times a year in its trimester system of Spring, Summer, and Fall. Eligibility requires a minimum HSC GPA of 3.5, though most successful applicants have higher scores. The admission test covers English, mathematics, and analytical skills, with direct admission options for high scorers on the SAT or those with outstanding SSC and HSC results. The application fee is BDT 1,500. Graduate programs include MBA and Executive MBA through the business school, MSc programs in computer science and mathematics, a Master of Public Health, and various other master's and doctoral degrees.

Tuition is BDT 8,000 per credit as of Spring 2026. Total program costs range from approximately BDT 1,056,000 for a 120-credit BBA to BDT 1,517,500 for the 170-credit architecture program and BDT 1,416,000 for pharmacy. Other fees include a one-time admission fee of BDT 25,000, semester fees of BDT 10,000 to 15,000, and various lab and library fees.

NSU offers 12 types of scholarships that collectively supported 6,555 recipients in 2025, with approximately BDT 400 crore disbursed. These include merit scholarships covering 25 to 100 percent of tuition, need-based scholarships, alumni scholarships, sports scholarships for national athletes, cultural scholarships, Dean's List

awards, the Vice-Chancellor's scholarship, and the Founder's scholarship. The university also offers departmental scholarships through each school.

The campus features the first fully automated university library in Bangladesh, equipped with RFID technology and spanning 70,000 square feet with 1,200 seats. The NSU Genome Research Institute is the first genomic research institute in Bangladesh. The university also has state-of-the-art computer labs, a business incubator, a moot court for law students, a media lab, and full Wi-Fi coverage.

The 22 student clubs at NSU are among the most active in the country. The NSU Computer and Coding Club, Business Club, Debating Society, Cultural Club, Film Club, Photography Society, Robotics Club, IEEE Student Branch, Law and Moot Court Society, Economics Club, Marketing Forum, Finance Club, Model UN Club, and Career Club all organize regular events, workshops, and competitions. The Blood Donors' Club and Volunteer Organization handle community service initiatives.

Recent events at NSU include its 26th convocation, continued recognition as the number one private university in Bangladesh by THE and QS rankings, and ongoing research output from the Genome Research Institute. THE World University Rankings place NSU at 801-1000 globally and joint first in Bangladesh among all universities. QS ranks it at 951-1000 globally and 149th in Asia. THE Young University Rankings place it first in Bangladesh.

However, NSU has been embroiled in several controversies. A Tk 304 crore land scam involving alleged illegal land acquisition by university authorities is under investigation by the Anti-Corruption Commission. In 2023, reports surfaced of alleged militant connections to campus, which the university denied. A Board of Trustees member faced sexual harassment allegations in 2022. The Vice-Chancellor and administrators were accused in 2021 of using university funds to purchase luxury vehicles. Multiple faculty termination disputes have also been reported. Despite these challenges, NSU maintains its position as Bangladesh's leading private university.

The NSU Career Fair is held annually with over 100 employers. The alumni network of over 25,000 graduates is very active, and job openings are regularly posted at jobs.northsouth.edu. Notable alumni include Hussain Elius, co-founder of Pathao, and Tanvir Mishuk, co-founder of Nagad.

Admission Process

NSU admits students three times a year for Spring, Summer, and Fall semesters. For undergraduate admission, applicants must have a minimum GPA of 3.5 in both SSC and HSC (or equivalent), with specific subject requirements depending on the program. For engineering programs, applicants need Physics and Mathematics in HSC with a minimum B grade. For BPharm and LLB programs, which are only offered in Spring and Summer semesters, applicants must select them as their first choice. The admission test is a two-and-a-half-hour exam consisting of English grammar and vocabulary, quantitative aptitude (general math), reading comprehension, and composition (essay). For Fall 2026, the application deadline was 26 July 2026 and the admission test was held on 1 August 2026. Graduate admission applications for Fall 2026 had a deadline of 18 August 2026 with the test on 21 August 2026. The application fee is Tk. 1,500 for undergraduate programs. Documents required include SSC and HSC transcripts, O/A level equivalents where applicable,

passport-size photographs, national ID, and birth certificate. Admission test waivers are available for students with exceptional academic records, such as GPA 5.00 in either SSC or HSC with at least GPA 4.80 in the other. International applicants follow a separate process through the Office of External Affairs. Newly admitted students attend an orientation program followed by course advising and registration in their respective departments.
